Switch unit left OEM, S 1000 RR 2019-
 Article code: 6131B134A00

The race switch unit for the BMW S 1000 RR (K67) replaces the standard "scroll wheel" on the left handlebar side. Some of the buttons now have a double function, which is why the switches have two different layouts. One layout for racing functions and a second layout to set the menu.

You can switch between the Race and Menu layout with the middle button (3).

RACE LAYOUT		MENU LAYOUT	
Button	Function	Button	Function
1	DTC +	1	Menu left
2	DTC Off	2	Menu out
3	Switch menus	3	Switch menus
4	Lap	4	Menu in
5	DTC -	5	Menu right
6	-	6	Scroll wheel up
7	-	7	Scroll wheel down
